

## To Whom It May Concern

This is to certify that Dr. Ralf Senner has visited our health care center (Alsafwa hospital 6<sup>th</sup> of October city, Cairo, Egypt) from 2012 till 2014. He implemented the bariatric robotic assisted surgery (with AESOP voice controlled system) as well as the full obesity program like preoperative interdisciplinary management and follow up criteria (after the Munich Institute).

He made a very successful bariatric surgery with 0% complications and treated difficult and very difficult cases (200-240 Kg weight Patients)

Prof Senner was appreciated from his colleagues for his friendly and uncomplicated art of conversation and relationship; the patients loved him for his help and understanding their suffering.

Serag Zakaria, MD

Chairman of ALSAFWA Hospital

6th of October city, 1st district

Cairo, 27<sup>th</sup> of April 2017
